SUMMARY

Highly motivated and adaptable individual ready to begin a professional career. I aim to contribute effectively to organizational success through dedication, teamwork, and a continuous learning mindset. Excited to gain hands-on experience and build a strong foundation for future career growth.

PROJECT

Lung cancer prediction model

- Built a CNN-based deep learning model to classify lung cancer histopathological images into multiple classes with 98% accuracy. Deployed the model using Flask for real-time image prediction with evaluation using confusion matrix, precision, recall, and F1-score.

Jotstar vs Liocinema - Power BI analysis

- Built a Power BI dashboard to analyze and compare user engagement across OTT platforms using consolidated fact data. Developed advanced DAX measures such as Engagement Index, Heavy Users %, and Watch Time Gap to derive business insights.

Gift card marketplace - Full stack

- Developed a full-stack Gift Card Marketplace using Python (Flask) and MongoDB, enabling users to buy, sell, and manage digital gift cards. Implemented secure authentication, UPI QR-based payment integration, and real-time notifications with RESTful APIs.

INTERNSHIP

Frontend Development Internship - CodeAlpha

June 2025 - July 2025

- Built responsive web applications using HTML, CSS, JavaScript, Bootstrap, and jQuery while improving UI functionality.

Web Development Internship - MotionCut

Sep 2024 - Nov 2024

- Developed interactive web pages with modern technologies and enhanced UI/UX using version control and deployment tools.

Java Internship - CodeAlpha

Oct 2025

- Created mini-projects using Core Java, applying OOP concepts and problem-solving skills to build efficient applications.

EDUCATION

UG - Bachelor of Engineering in Computer Science and Engineering (Pursuing)

- 85%

V.S.B. College of Engineering Technical Campus.

Higher Education

10th standard - Bharathi Kids Kshethralaya , Tirupur - Pass

12th standard - Bharathi Kids Kshethralaya , Tirupur - Scored 78%

CERTIFICATIONS

- Front end development
- Web development
- Data Structure and Algorithm in Java - NPTEL

ADDITIONAL INFORMATION

- Technical Skills:** Programming languages such as Java, Python, HTML, CSS, Javascript, Bootstrap.
- Languages:** English, Tamil.
- Soft skills:** Leadership , Team management , Quick learner.
